

## TECHNICAL INFO N° 9

### RECOMMENDATIONS FOR THE STORAGE OF OUR PRODUCTS

In respecting the following advices, you will give an optimal shelf life to our products of two years.

- 1/ Rotate the warehouse by using first the old material and applying the First In - First Out method.
- 2/ Keep the material at a temperature between 19 and 23°C and with a humidity level of 45 to 55 %.
- 3/ Keep the material in its original packaging.
- 4/ Do not expose material to sun rays.
- 5/ Keep the rolls on the edge and not on the face material side.
- 6/ Repack the ends of rolls in their original packagings.
- 7/ Store the material 24 h before in the room they will be converted in.
